Big Impact

As well as the primary role of bedroom curtains blocking out the light and keeping your bedroom warm, they can also give a room something it's lacking, whether that's simplicity, elegance or drama to create a different aesthetic, giving a bigger visual effect as shown here. From the Sanderson Glasshouse fabrics collection, King Protea Rhodera, £69 per m². sandersondesigngroup.com

STYLE AND SIMPLICITY IN THE BEDROOM

Vispring has launched a monochrome fabrics look, available across their entire range of luxury beds. Featuring five neutral tones, the fabrics will allow you to create bespoke bed designs for a personalised sleeping experience, with the option to cover the headboard, divan, mattress and topper. LUXURY BOTANICALS

Sharing its signature style, Sanderson adds four new nature inspired designs to its range of luxurious bedding for SS23.
